Petauro Systems®
Public Safety Remote Pilot

November 5-9, 2018

Hosted by:
Loveland Fire Rescue Authority
100 Fire Engine Red Road
Loveland, CO

Public safety remote pilots need to be capable of operating a UAV for multiple types of missions. This foundational course gives students the core knowledge they need for planning and conducting unmanned aircraft flights.

Tuition: $995

Certified officers may be eligible for POST scholarship funds for this course. Please visit our website for additional details.
